The Eres Education Seminar aims to identify the key issues driving the evolution of real estate education in Europe during different market cycles, the experiences of individual countries and the problems encountered by those involved in the process. The meeting wants to provide a significant form for sharing experiences and identifying classroom best practices.

University Iuav of Venice is one of the leading universities in Europe and worldwide in architecture, design, fashion, visual arts, urban and regional planning, and theatre.

Established in 1926 as one of the first Architecture Schools in Italy, Iuav combines a renowned tradition with a solid commitment to permanent innovation while putting the design process at the core of the educational experience.

Degree programmes and courses in English, a vast network of worldwide partners in teaching and research, several visiting academics and professionals and a vibrant student community from all over the world make Iuav an international university.

Iuav is strategically and conveniently located in the heart of Venice historical centre, which greatly benefits students and staff in terms of cultural and sport opportunities. Venice can be accessed from Venice Airport or by train (Santa Lucia Train Station). Palazzo Badoer is located in Calle de la Laca, 2468, 30125 Venice, and is a 10-minute walk from train station.
